Clara Swahn

I am a happy and active person with many hobbies, such as climbing, badminton, reading books about Greek mythology, and taking care of all my houseplants. I love cuddling with my two guinea pigs, Tuffsen and Karamell, and I gladly spend my weekends watching a good movie while eating chips.

EXPERIENCE

Precisit – *Frontend Developer*

JUNE 2026 – JULY 2026

I worked a summer job at Precisit and had the opportunity to make their internal time reporting system mobile-friendly. Here I primarily used React, TypeScript, Tailwind, AWS, and Deno Deploy. We also used the component library shadcn. During the project, we used Scrum, where I planned and defined tasks together with a tech lead and a product owner.

Promote International AB – *Program Designer*

JANUARY 2022 – PRESENT

At my current job, I have several areas of responsibility, the largest of which are administering courses, supporting our international customers, handling orders, and designing course books. I have also coordinated major projects for one of our customers abroad. I work a lot with our course material where I handle the actual design, but also proofreading and translations. The job involves a lot of independent work where I am personally responsible for maintaining processes and ensuring they are followed by others in the organization. The support for our customers covers both administrative and technical aspects.

HSB Stockholm – *Administrator*

OCTOBER 2021 – JANUARY 2022

Administrator at HSB Stockholm. A service-oriented and administrative position where the telephone was the primary tool. I worked with Agresso and various digital programs. Clear communication and collaboration with customers and internal relations were in focus.

Stadium – *Salesperson*

SEPTEMBER 2020 – OCTOBER 2021

Salesperson at Stadium. Every workday was unique and fast-paced! A workday was divided into three areas: working the cash register and taking payments, helping customers out on the floor with their individual problems, and handling goods such as stock, cleaning, and display. I was also responsible for inventory balances and logistics, and I was the

PROGRAMMING LANGUAGES, TOOLS, AND TECHNOLOGIES

React, HTML5, CSS, Javascript, Typescript, AWS, Next.js, Github, Tailwind, Vercel, Node, Express.js, Deno Deploy, EJS, npm, jQuery, Material-UI, shadcn

EDUCATIONS

Futuregames - Frontend Developer

Södertörns University - Game Developer

SKILLS

Unity (Game engine)

Adobe: InDesign, Photoshop and Illustrator

Experience in the service industry

Maya Software (3D modeling)

Substance Painter (3D-painting software)

Microsoft Office: Word, Excel and PowerPoint

workplace safety representative.

Espresso House – *Barista*

JANUARY 2020 – SEPTEMBER 2020

Barista at Espresso House. I primarily handled the cash register and made and served coffee. I also took care of dishes and cleaning. A very social and active job where you never stood still.

Gröna Lund – *Resource / Break Relief Worker*

MAY 2019 – AUGUST 2019

APRIL 2018 – SEPTEMBER 2018

Resource/Break relief worker for Park Food at Gröna Lund during two summers. Worked as a combo, resource, and break relief worker in the food area (restaurant and café), which meant I primarily stepped in where I was needed for the day. Prepared and served food, made and served coffee, and worked the cash register. A very flexible, fast-paced, and fun position.

EDUCATION

Futuregames Frontend Developer – *Ongoing*

AUGUST 2025 - MAY 2027

Currently studying to become a Frontend Developer at the vocational university Futuregames. During the education, we have had the opportunity to do a variety of projects, ranging from individual development to group work in sizes of 6 people. During group work, we use Scrum and Agile Development. The education places a lot of focus on industry-relevant technologies such as React, TypeScript, Next.js, and good knowledge of Git (GitHub). We have also worked with automated testing and best practices in testing.

Södertörns University, Game Program – *Bachelor's Degree in Media Technology*

AUGUST 2017 - MARCH 2020

For my degree project, I did a quantitative study on costume design in computer games as a tool to convey narrative and functionality. Link to the article here.

During the education, we created many games in groups, ranging from 6 to 30 people. The last game I created during my education can be found here.

Stockholms University, Film studies – *Degree*

AUGUST 2016 - JANUARY 2017

LANGUAGES

Swedish: Native language

English: Fluent

German: Basic

PROJECTS

Hässelby Strands Sjöscoutkår (HSS)

During my studies at Futuregames, we had a major project where five groups got to create and design a website for Hässelby Strand's Sea Scout Corps, where the winners would get their website published. Out of these five groups, my group's website was named the best and our website will become their official website in the near future.
